Annual Report 2024

Daycare and Support for Children with Disabilities

A milestone in our daycare center was its ability to operate five days a week, providing a safe and nurturing space for children in the region. Here, children not only have a secure play environment and educational support but also receive a nutritious meal twice a week. We also support children with disabilities and hope that they will soon be able to join our daycare, ensuring that all children, regardless of their needs, receive the support they deserve.

April – Toilet Construction and Volunteer Support

In April, we initiated our toilet construction project, a significant step toward improving living conditions in the region. Thanks to the tireless efforts of volunteers, we completed the basic structures of two essential toilet facilities. This measure not only enhances hygiene but also provides children in daycare with proper sanitation. A heartfelt thank you to all the volunteers who helped make this project a reality!

September – Water Project with Hand Pump

In September, we implemented another important project: the construction of a hand pump for water supply. Although the solar pump and storage tank project is still in progress, we are optimistic that it will soon be completed, providing the local community with a sustainable and reliable water source. This initiative ensures that clean drinking water is accessible to approximately 2,500 residents, representing a significant improvement in public health and well-being.

December – Greenhouse Construction and Long-Term Support

In December, we built a greenhouse, marking the beginning of sustainable agriculture in the region. This project is a crucial step toward improving local food security and increasing community self-sufficiency. The greenhouse will be essential for both the self-sufficiency of children in daycare and the local residents.

We would also like to highlight the incredible support from our long-term donors, who have accompanied and continuously supported our project throughout the year. Without their help, many of these advancements would not have been possible. A heartfelt thank you to everyone who stood by us this year!

Thanks to Our Donors and Supporters

A special thank you goes out to all our donors and supporters, whose generous contributions throughout the year have significantly contributed to the success of our projects. Without your help, none of this would have been possible. Your commitment and support make a real difference in the lives of those who benefit from our initiatives.

Outlook for 2025

Looking ahead to the coming year, we have already planned new projects and aim to expand the success of our ongoing initiatives. Developing infrastructure, improving living conditions, and promoting education and health remain our top priorities.

1. Early Childhood Development Education Center

One of our main focuses in 2025 will be expanding our educational offerings for children. We plan to establish an Early Childhood Development Education Center (ECD), which will not only provide early childhood education for local children but also support their individual development. The center will be specifically designed to meet the needs of young children, providing them with a solid foundation for their academic and personal growth. The construction of this center will allow us to enhance pedagogical quality and better prepare children for future challenges. It will also serve as a place where children can learn undisturbed.

2. Expansion of the Daycare Program

Another key goal for the coming year is expanding our daycare facility. We want to accommodate more children, providing them with a safe, nurturing, and supportive environment where they can learn and develop socially. This expansion will not only benefit the children but also support families by offering working parents reliable childcare. A particular emphasis remains on ensuring that all children, regardless of their individual needs, receive the support they deserve.

3. Water and Hygiene Program

Clean water and good hygiene are fundamental to a healthy lifestyle. As part of our Water and Hygiene Program in 2025, we plan to further expand water infrastructure to provide more households with access to clean drinking water. Additionally, we aim to construct a modern toilet and a warm water shower. Hygiene education and health promotion are also central to our efforts. We plan to implement additional hygiene measures, such as distributing soap, hygiene kits, and sanitary pads for teenagers. Furthermore, we want to introduce and educate girls about menstrual cups (which are not well known in the area), promoting sustainability while reducing waste and costs.

4. Daily Meals for Children in Daycare

Another core objective for the coming year is ensuring adequate nutrition. We want to make sure that every child attending our daycare receives a balanced meal every day. This is especially important for fostering healthy development and providing children with the energy they need for their daily activities. We are working on creating a nutritious and diverse meal plan to best support the children.

5. Continued Support for Children with Disabilities

We are particularly proud of our efforts to integrate children with disabilities into our programs. In 2025, we aim to continue and expand this work to ensure that all children, regardless of their abilities, receive the support and encouragement needed to reach their full potential.

Collaboration with Our Donors and Supporters

None of these initiatives would be possible without the generous support of our donors and partners. In 2025, we continue to count on your valuable help to implement planned projects and reach even more children and families.

We firmly believe that together we can achieve even more. Your contribution – whether financial support, material donations, or voluntary work – makes a real difference in the lives of those who benefit from our projects.

We thank you in advance for your support and look forward to another successful year with you!

Thank you all for your support and trust!

Together, we can make a big difference.

**With heartfelt gratitude,
The JeViVo Team**
